

# ■ Fan Platform Storyboard & Prioritization

## Frame 1: First-Time Access – Registration CTA

Users see a clear REGISTER NOW option on first visit. Returning users auto-login if session active. Keep onboarding minimal: Name, Email, Country, Favorite Team.

## Frame 2: Landing Page – Stadium Carousel

Immersive carousel with stadium images. Each frame includes Country, City, Capacity, Year built, Historical facts. CTA overlays: 'Book Your Experience' or 'Add to Favorites'.

## Frame 3: Personalized Profile Dashboard

Users customize profiles: avatar, wallpaper (country flag, player, wall art). Chat for fan-to-fan, platform updates, and brand partner engagement.

## Frame 4: Media Hub / Gallery

Montage of football content: qualifiers, classic goals, soccer history reels. Include filters (by country, player, year). Enable social sharing for viral reach.

## Frame 5: Persistent Features (Cross-Pages)

- Advertising slots (header/footer) with rotating partner ads.
- Live ticker with FIFA updates & partner news.
- Countdown clock to World Cup 2026 kickoff with interactive elements.

## ■■ Developer Sequencing (Build Order)

1. Authentication flow (Register/Login + Session persistence).
2. Landing page with stadium carousel.
3. Profile dashboard (basic avatar + wallpaper first; chat later).
4. Media hub/gallery.
5. Cross-page features (ads, ticker, countdown).
6. Chat/messaging (Phase 2, post-MVP).
